REAL AND COMPRESSION BRONZE  
BUILDERS' HARDWARE,

FOR

PRIVATE RESIDENCES AND PUBLIC BUILDINGS,

MADE BY THE

RUSSELL & ERWIN MANUFACTURING CO.

NEW BRITAIN, CONN.

WAREHOUSES:

NEW YORK, PHILADELPHIA, BOSTON, BALTIMORE.

VOLUME No. 1,

CONTAINS ILLUSTRATIONS, DESCRIPTIONS, AND PRICES OF LOCKS, KNOBS, PADLOCKS, BUILDERS' AND OTHER HARDWARE.

VOLUME No. 3,

CONTAINS ILLUSTRATIONS, DESCRIPTIONS, AND PRICES OF GENERAL HARDWARE KEPT IN STOCK AND FOR SALE AT  
OUR WAREHOUSES IN NEW YORK AND PHILADELPHIA.

ENTERED ACCORDING TO ACT OF CONGRESS, IN THE YEAR EIGHTEEN HUNDRED AND SEVENTY-FIVE,  
BY THE RUSSELL & ERWIN MANUFACTURING COMPANY,  
IN THE OFFICE OF THE LIBRARIAN OF CONGRESS, AT WASHINGTON, D. C.

THE CASE, LOCKWOOD & BRAINARD Co.,  
PRINTERS AND BINDERS,  
HARTFORD, CONN.

**S**INCE we issued our Catalogue of REAL BRONZE BUILDERS' HARDWARE in 1870, we have steadily increased the variety of patterns and styles of finish of the goods in this branch of our manufacture.

We call attention to the fact, that in this increase of variety we have preserved an artistic order of design, and produced novelties in the style of finish that has stamped the goods as characteristic and peculiarly our own, and that the public have recognized and conceded these merits, by generally adopting them as the standard for COMPARISON, COMPETITION, and IMITATION.

## RUSSELL & ERWIN MANUFACTURING CO.

NEW BRITAIN, CONN., MAY 20, 1875.

---

 The goods and designs described and illustrated in this book as "Patented," belong exclusively to us.

We desire to call attention to this fact, and caution all persons against infringements of the same.

## NOTICE.

---

We can furnish the goods in this Catalogue, in the following styles of finish, viz:

LIGHT AND DARK BRONZE, VERDE ANTIQUE, GILT, ILLUMINATED, NICKEL PLATED, NICKEL AND BLACK, AND NICKEL AND GOLD.

The number used in the description of the article, indicates the pattern as well as the style of finish, viz: LIGHT BRONZE, and in all cases the goods will be furnished in LIGHT BRONZE unless specified to the contrary. When ordered DARK BRONZE there will be no additional expense charged.

The other styles of finish above-named, are made *to order*, and samples with prices will be furnished upon application.

The following system is adopted by us for designating the different styles of finish by number.

1000	prefixed to the printed numbers indicates					DARK BRONZE.
2000	"	"	"	"	"	VERDE ANTIQUE.
3000	"	"	"	"	"	GILT.
3000 Style, &c.,	"	"	"	"	"	ILLUMINATED.
4000	"	"	"	"	"	NICKEL PLATED.
5000	"	"	"	"	"	NICKEL AND BLACK.
6000	"	"	"	"	"	NICKEL AND GOLD.

Thus:—Knob No. 933, as printed, is Light Bronze. If wanted in Dark Bronze, the number will be No. 1933, &c., &c.

No. 780.

# EXTRA HEAVY BURGLAR-PROOF FRONT DOOR MORTISE LOCK,

(ORNAMENTED BRONZE FRONT, PATENTED FEBRUARY 23, 1869.)

WITH FOUR PATENT STEEL KEYS.

NICKEL PLATED.

FIVE TUMBLERS ON BOTH THE LOCK AND LATCH BOLTS.

Inside Work all Brass.

These Locks are made in the very best manner, and with great care. All the parts are accurately fitted and perfectly adjusted.

The Tumblers, Bolts, and Springs are made of BRASS; the Keys are of the *best quality of Steel*, perfectly cut and fitted. We can and do give as many changes of Keys as *may be required*,—*no two Locks being alike*, unless so ordered.

We can recommend them for their strength, durability, SAFETY, elegance of finish, and nicely working mechanism, as *superior in every respect*.

No.	SIZE.	STEEL KEYS, PATENTED MAY 4 AND DEC. 28, 1869.	EACH.
780	8 × 4 $\frac{1}{2}$	Ornamented, Patent Bronze Front, 2 Bolts, Extra Heavy, 5 Brass Tumblers on both Night and Locking Bolts, 2 Steel Night Keys, and 2 Steel Keys for Locking Bolt, inside work <i>all</i> Brass, Knob on $\frac{3}{8}$ inch Swivel Spindle.  <i>Distance from center of hub to front, 3 inches.</i>	\$30.00

*Additional Steel Keys furnished to order, at fifty cents each.*

The Front of this Lock will be beveled to fit the door, when so ordered, at an additional charge.

*Bronze Rose and Escutcheon Combined, No. 580, is made especially for OUTSIDE of this Lock.*

Five-Tumbler

## MORTISE LOCKS,

WITH PATENT STEEL KEYS.

NICKEL PLATED.

PATENTED MAY 4, AND DEC. 28, 1869. ORNAMENTED FRONT PATENTED FEB. 23, 1869.

These Locks are made for Heavy Doors, and are well adapted to Churches, School Houses, Railway Stations, Banks, Stores, and Public Buildings.

No.	SIZE.	Distance from Center of Hub to Front.	PACKED WITH TWO STEEL KEYS TO EACH LOCK. ADDITIONAL KEYS EXTRA.	Brass Front. EACH.	Bronze Front. EACH.
770	6 × 3	2 inch.	Plain Front, 2 Bolts, 5 Tumblers, for Narrow Stile Doors, . . . . .	\$10.00	
771	6 × 3	2 inch.	Ornamented, Patent Front, 2 Bolts, 5 Tumblers, for Narrow Stile Doors, . . . . .		\$12.00
775	6 × 4½	3 inch.	Plain Front, 2 Bolts, 5 Tumblers, . . . . .	10.00	
776	6 × 4½	3 inch.	Ornamented, Patent Front, 2 Bolts, 5 Tumblers, ( <i>see Cut</i> ), . . . . .		12.00
1776	6 × 5½	4 inch.	Ornamented, Patent Front, 2 Bolts, 5 Tumblers, . . . . .		20.00
777	6 × 5½	3 inch.	Rabbeted Front, 2 Bolts, 5 Tumblers, . . . . .		15.00
977	6 × 5½	3 inch.	Rabbeted Ornamented Patent Front, 2 Bolts, 5 Tumblers, scant ½ inch Rabbet, . . . . .		18.00

LOCK No. 776, with Roberts' PATENT DOOR BOLT No. 1750, for Double Doors, (for the description of the Bolts see page 331,) . . . . . per pair, \$24.00

LOCK No. 1776, with Roberts' PATENT DOOR BOLT No. 1751, for Double Doors, (for the description of the Bolts see page 331,) . . . . . " 40.00

KNOBS ON ½ INCH PLAIN SPINDLE.

*Additional Keys furnished to order, at fifty cents each.*

We can recommend these Locks in every particular as an article far superior to anything heretofore made in this line, as STRENGTH AND DURABILITY is a prominent feature of the goods.

The Fronts of these Locks and Bolts will be beveled to fit the Doors, when so ordered, at an *additional charge*. Bronze Escutcheons Nos. 776 and 1777 are made for these Locks especially.

No. 700.

For Description, see Page 308.

Vestibule Latch No. 705, to match Front Door Lock No. 700.

STEEL KEYS PATENTED MAY 4 AND DECEMBER 28, 1869.

No.	SIZE.	FRONT PATENTED FEBRUARY 23, 1869.	EACH.
962	$4\frac{1}{4} \times 4\frac{1}{4}$	Ornamented, Patent Bronze Front, Rabbeted, 5 Tumblers, 2 Patent Steel Keys, Knob on $\frac{3}{8}$ inch Swivel Spindle, (see Cut, page 327,) . . . . . <i>Distance from centre of hub to front, <math>3\frac{1}{4}</math> inches.</i>	\$5.00

This Latch is for the Inner or Vestibule Door, intended for use in connection with the Front Door Lock No. 932, and when so used, we furnish the Night Keys to fit both Locks. This Latch can be used on single Doors, same as a common Night Latch, when desired. When ordering this Latch in connection with No. 932 Lock, it is best to state that the Keys are wanted to *pass*.

*Additional Steel Keys furnished to order at thirty-seven, and a half cents each.*

Bronze Escutcheon No. 542 is made for this Latch.

# MORTISE DOOR BOLTS,

To be used on Double or Folding Doors.

These Bolts afford a complete and secure fastening for double doors, the Bolt Front acting as the strike for the Key Lock. The Door Bolt is mortised into the face of the door in the same manner as a Mortise Lock, the Rods being sunk into the edge of the door and then covered, thus making a good finish. The mechanism of the Bolt Lock is such that, upon turning the Knob, both Bolts are thrown, fastening the door *top and bottom*.

When the Bolts are withdrawn (and the door unfastened) the same movement throws out the square Bolt in the face of the Bolt Lock, which thus acts as an effectual guard to *prevent the closing* of the other door (in which is the Key Lock) before the Bolt Door is fastened.

The head of the Bolt on the Bottom Rod is operated by a self-acting spring (see plate), which secures its entrance into the striking-plate, and overcomes any trouble which may arise from the shrinkage or warping of the door.

When ordering these Bolts, it is necessary, in all cases, to give the exact height of door, and the distance from the center of the Knob to the floor.

No.	SIZE.	Distance from Centre of Hub to Front.	ROBERTS' PATENT DOOR BOLTS, PATENTED MARCH 15, 1859, AND JULY 17, 1869. PACKED WITH RODS, STRIKES, AND GUIDE PLATES.	Brass Front. EACH.	Bronze Front. EACH.

# MORTISE LOCK

AND

## SPRING FLUSH PULL COMBINED,

For Sliding Doors,

PACKED IN SETS COMPLETE,

WITH FLUSH ESCUTCHEONS AND FOLDING KEYS.

(SEE PLATES ON PAGES 352, 353, 354, AND 355.)

These Locks are made for Doors that slide into the wall *flush* with the jamb, where Door Knobs cannot be used, the *flush* Escutcheons being used instead.

The Pull in the face of the Lock is operated by means of a spring catch, as shown on pages 352 and 354, which represent the pull thrown out ready for use.

The Flush Escutcheons act as handles for opening and sliding the doors.

The Keys and Escutcheons are fitted to various thickness of doors, to order. It is necessary, in all cases, to give the *exact* thickness of doors when ordering.

No.	Size.	Distance from Key to Front.	ORNAMENTED FRONTS PATENTED MAY 17, 1870.	Bronze Front. PER SET.

# PATENT LEVER BELL PULLS.

PATENTED JANUARY 18, 1870, AND JUNE 7, 1870.

No. 11.

The above Cut represents the style of ALL the Nos. of Patent Lever Bell Pulls, the difference being in the *size* of plate and pattern of Knob, as described.

The dotted lines shown indicate the movement of the Lever and its position when the Bell is rung.

## REAL BRONZE

# PATENT LEVER BELL PULLS.

PATENTED JANUARY 18 AND JUNE 7, 1870.

Special attention is invited to the style *and mode of action* of these Bell Pulls, as their superiority in both respects over that of the Pull in common use will be apparent on a slight examination.

The *facility and certainty* of action of the Pull is a prominent feature of the goods.

No.	LENGTH OF PLATE.	WIDTH OF PLATE.	DESCRIPTION.	EACH.
1	7 inches.	3 inches.	Concave Knob, to match Door Knobs Nos. 21 and 38, . . . .	\$9.00

ORNAMENTED  
REAL BRONZE FLUSH BOLTS.

Nos. 30 and 31. Both numbers the same design. (Patent applied for.)

# ORNAMENTED REAL BRONZE FLUSH BOLTS.

(PATENT APPLIED FOR.)

For Folding Doors, etc.

These Bolts are made in the very best manner—extra heavy and strong, and are intended for heavy doors.

There are two kinds of Bolts, viz: TOP BOLTS No. 30, and BOTTOM BOLTS No. 31. Those called TOP BOLTS No. 30 are to be used *only* at the *top* of the door, or in positions where the Bolt requires to be pushed *up*; and those called BOTTOM BOLTS No. 31 are for use at the *bottom* of the door *only*, or where the Bolt requires to be pushed *down* to make the fastening.

The mechanism of the TOP BOLT is such that after being bolted, there is no possibility of its being unfastened by the shutting and jarring of the other door; while the BOTTOM BOLT is so arranged that it cannot *drop* and catch on the carpet or sill when the door is unbolted and opened.

These Bolts should, in all cases, be used in *pairs*; that is, every *pair* of Bolts for a door should have *one* TOP BOLT, No. 30 (whatever length may be required,) and one BOTTOM BOLT, No. 31, and should be so ordered.

WIDTH.	LENGTH.	DESCRIPTION.	EACH.

These Fastenings are made for heavy French Windows or Doors, and should be used in PAIRS.

The Latch Flush Bolt (No. 2) is for use at the TOP of the door only.

It is self-acting, and, upon closing the door or window, FASTENS ITSELF.

It can be operated by the hand, when of easy access; otherwise a cord or ringed rod may be used to reach the Hook or Thumb-piece, which is made very strong to admit of its use as a pull to open the door or window.

The Flush Bolt (No. 12) is for bolting the BOTTOM of the door or window, and is intended for use with the Latch Flush Bolt (No. 2).

It is NOT SELF-FASTENING, but must be worked by the hand. Its mechanism is the same as the Bottom Bolt described on page 441, which prevents the Bolt from dropping down and catching on the carpet, or striking the sill when the door is unbolted.

No.	SIZE.	DESCRIPTION.	EACH.
